MITSUI KINZOKU

August 5, 2005

To whom it may concern:

This letter is to inform you that Oak-Mitsui's FaradFlex® materials are in compliance with the European Parliament Directive on the Restriction of use of certain Hazardous Substances in electrical and electronic equipment (RoHS). FaradFlex® does not contain, or has levels significantly below the specified levels of, lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated biphenyl either (PBBE).

In addition, our dielectric materials do not contain bromine flame retardants.

If additional information is required, please contact me at john.andresakis@oakmitsui.com or by calling (518) 686-8088.

Sincerely,

John Andresakis
VP of Strategic Technology
Oak-Mitsui Technologies

FaradFlex® is a registered trademark of Oak-Mitsui, Inc.
